- English
- English is broader on the system

About Me

I'm a web developer specializing in building website-based applications. I've worked on various projects, including an online menu ordering system, an admin panel system, a Jinom reseller system, a personal task system, and other applications. I'm accustomed to working both in teams and independently, and remain committed to learning and contributing to the technology world.

Experience and Certificate

- Able to complete online menu ordering information system and admin panel for restaurant needs, using Laravel, MySQL, CSS Native, Bootstrap, and JavaScript Native.

- (Internship PT Jinom Network Indonesia) Developing the jinom reseller project, a platform to facilitate online communication between resellers and ISP providers, using Laravel, API, Vue js, MySQL, Tailwind CSS, and Postman.

- Building a to-do list application system to manage daily tasks, using Laravel, API, Vue js, MySQL, Tailwind CSS, and Postman.

- Passed the national programmer certification (BNSP).

- Passed the PELP (Primakara English Language Proficiency) English certification.

- Passed PCC Certification (Primakara Career Center).

- Passed FCNS (Foresec Certified in Networking Security) certification.

- Participate in MBKM with a certified independent study program at PT Amanah Karya Indonesia in the Website Developer program.
